Rule 3.3 Well Registration

- (a) Well owners of the following wells shall file an application for well registration with the District and the District shall register:
 - (1) All new wells drilled on or after January 1, 2009, including new wells exempt under Rule 2.1(a)
 - (2) All existing wells that are not exempt under Rule 2.1(a)
 - (3) All wells replaced and plugged under Rule 3.11; notwithstanding anything in these rules, there shall be no fee for wells registered under this subsection.

Rule 3.5 Registration Of New Wells Or Alteration To Existing Wells Required Prior To Drilling Or Alteration.

- (a) An owner or well driller, or any other person legally authorized to act on their behalf, must submit all applicable registration fees, obtain approval of a registration application, and submit a well report deposit with the District before any new well, as defined in Rules 1.1(39) and 1.1(37)(e), except leachate wells or monitoring wells, may be drilled, equipped, or completed, or before an existing well may be substantially altered with respect to size or capacity, beginning on and after January 1, 2009.
- (b) A registrant for a new well has 120 days from the date of approval of its application for well registration to drill and complete the new well, and must file the well report within 60 days of completion. The registrant may apply for one extension of up to 120 days which may be approved by the General Manager without further action by the Board of Directors. However, if the well is for a public water system, the registrant shall have 240 days to drill and complete the new well from the date of approval of its application for well registration, in order to allow time for Texas Commission on Environmental Quality (TCEQ) approval(s), and must file the well report within 60 days of well completion. Such a public water system registrant may apply for one extension of an additional 240 days which may be approved by the General Manager without further action by the Board of Directors, or may resubmit an identical well registration without the need to pay an additional administrative fee associated with the submittal of well registrations for new wells.
- (c) If the well report is timely submitted to the District, the District shall return the well report deposit to the owner or well driller. In the event that the well report required under this rule and Rule 3.7 are not filed within 60 days after the date the well is completed, the driller shall forfeit the well report deposit and shall be subject to enforcement by the District for violation of this rule.

*Applicants are urged to read all of the Temporary Rules for Water Wells in Hood, Montague, Parker, and Wise Counties, Texas, as revised by the District Board of Directors, on December 16, 2013. Rules can be found at: www.uppertrinitygcd.com. *By providing your e-mail address on this form, you are consenting to disclosure of your e-mail address if requested under the Texas Public Information Act.*

Part I – Well Owner and Driller Information

Well Owner: _____ Phone: _____

Contact : _____ *E-Mail: _____ Fax: _____

Mailing address: _____ City: _____ State: ____ Zip: _____
